OMAR HAMED

SOC Analyst | Network Security Engineer

New Damietta, Damietta, Egypt | +201044226565

Linkedin Medium Github | omarhamed.sec@gmail.com

PROFESSIONAL SUMMARY

Motivated Cybersecurity & SOC Analyst with strong hands-on experience in threat analysis, SIEM investigation, network security, and incident response. Trained through Google Cybersecurity Certificate, NTI CCNA, and NTI CyberOps. Intermediate-level skills in Wireshark, Splunk, ELK Stack, Linux, and Python automation. Passionate about Blue Team operations, documentation, and building secure systems.

TECHNICAL SKILLS

Cybersecurity

- SOC Operations: Threat Analysis, Log Review, Incident Detection & Response
- SIEM: Splunk, ELK Stack, Chronicle
- Network/Endpoint Security: Firewalls, IDS/IPS, Microsoft Defender
- Incident Documentation, Report Writing, Risk Assessment (NIST CSF)

Networking

- TCP/IP, OSI, VLANs, Subnetting, NAT
- Routing & Switching (CCNA Level) — OSPF, EIGRP, RIP
- Packet Analysis using Wireshark & tcpdump
- Network Design & Troubleshooting

Tools & Technologies

- Wireshark, Nmap, Burp Suite, Packet Tracer
- Linux (Basic: Ubuntu, Kali), Windows Security
- Python (Basic), SQL
- Notion (Team Dashboards & Documentation)

Soft Skills

Analytical Thinking, Leadership, Team Collaboration, Communication, Problem Solving

LEADERSHIP EXPERIENCE

Head of Cybersecurity Team — Microsoft Tech Club (Horus University)

2025 – Present

- Leading the cybersecurity team, defining semester roadmaps, and planning technical goals
- Assigning tasks, reviewing technical content, and mentoring team members
- Coordinating with Tech, Media, and HR teams to manage events and workshops
- Conducting and supervising sessions in SOC operations, network security, Linux, and Blue Team topics
- Designed and built a complete Notion Dashboard for the team including:
    - Task management system
    - Learning roadmap
    - Documentation hub
    - Tracking member progress and workshop planning
- Organizing CTF practices, hands-on labs, and cybersecurity awareness initiatives
- Ensuring team output aligns with Microsoft Learn Student Ambassadors (MLSA) standards

EXPERIENCE

Cybersecurity Operations Trainee — NTI Cisco CyberOps Scholarship
September 2025 – November 2025

- Hands-on labs in SOC, threat detection, and incident response
- Network traffic analysis using Wireshark to detect anomalies and malicious activity
- Investigated attacks: brute-force, SQL injection, compromised hosts, malware
- Nmap scanning for reconnaissance and vulnerability assessment
- Worked with Linux CLI (bash & PowerShell) for system administration
- Performed encryption/decryption, DNS/HTTP traffic analysis, and forensic data conversion
- User accounts management, process monitoring, and resource analysis in Windows & Linux

Cybersecurity Analyst Trainee — Google Cybersecurity Certificate
January 2025 – May 2025

- Completed 8 courses covering cybersecurity foundations, network security, Linux, SQL, and automation
- Conducted security audits and risk assessments using NIST CSF
- Analyzed suspicious network traffic using tcpdump & Wireshark
- Investigated phishing, malware, and brute-force attacks
- Used SIEM tools (Splunk, Chronicle) to query, filter, and analyze logs
- Practiced Linux file permissions, user management, and system hardening
- Wrote SQL queries for security investigations
- Automated log analysis and documentation using Python scripts
- Responded to simulated incidents following NIST IR lifecycle
- Documented findings and wrote incident reports & post-incident reviews

---

Network Engineer Trainee — NTI CCNA Scholarship
October 2024 – January 2025

- Routing & switching training with practical labs
- Configured physical routers & switches
- Designed network topologies using Cisco Packet Tracer
- Mastered subnetting (VLSM & CIDR)
- Implemented dynamic routing protocols: OSPF, EIGRP, RIP
- Configured STP for loop prevention & redundancy
- Deployed VLANs & inter-VLAN routing
- Delivered presentation on VPN technologies
- Practiced troubleshooting methodologies and documentation

EDUCATION

B.Sc. in Communication and Electronics Engineering
Horus University, Egypt **2022 – Expected 2027**

CERTIFICATIONS

- Google Cybersecurity Professional Certificate **May 2025**
- CCNA – NTI Scholarship **January 2025**
- Cisco CyberOps Associate Scholarship (NTI) **November 2025**
- Career Essentials in Cybersecurity by Microsoft and LinkedIn **January 2025**

ACTIVITIES

Volunteer — Resala Mansoura **2021 – 2022**
Organized food distribution, managed logistics, coordinated volunteer activities, and interacted with diverse community members.

Cybersecurity & Network Security Enthusiast — IEEE & Rally University Activities **2023 – Present**
Participated in technical workshops, group discussions, and collaborative learning in cybersecurity and network security.

LANGUAGES

- **Arabic** — Native
- **English** — Professional Working Proficiency
- **German** — A1 Level
